

ecosil®
CRAFTING SILENCE. ENHANCING WELLNESS

**ACOUSTIC
WALL
TILES**

Acoustic Wall Tiles (AWT) ensures sound absorption from different parts of the room and prevents echo. It is now available in an easy-to-use format that can be clicked and attached to the wall. It is ideal for customers who prefer a hassle-free solution and do not want to invest a significant amount of money to solve the problem.

Your Go-To for High Quality and Safe Soundproofing!

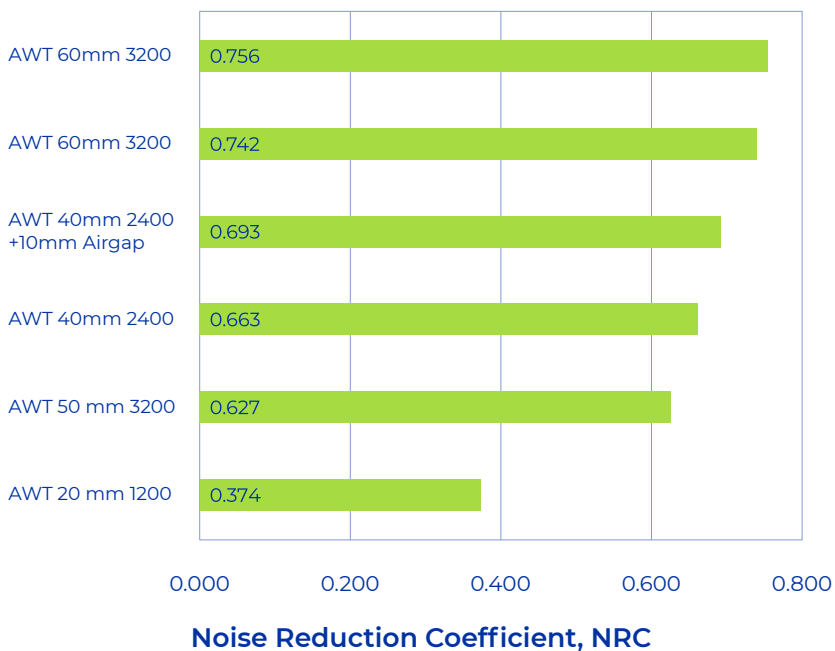

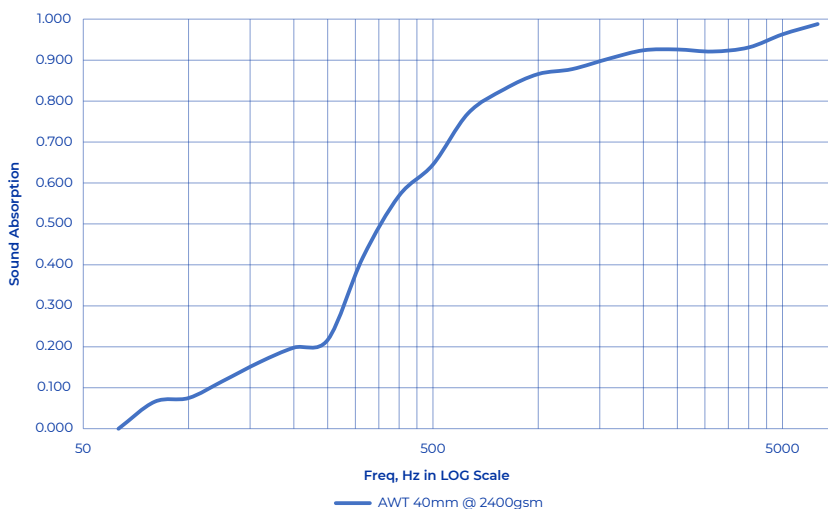

At Ecosil, we prioritize quality and safety in all our products. Our soundproof tiles are thoroughly tested to ensure they provide top-notch noise reduction and meet the highest fire safety standards.

We've put our tiles through rigorous noise reduction tests to show how effectively they block out sound, and we didn't forget about safety—our fire testing ensures they're as safe as they are effective.

For detailed test results, check out the information further in this brochure. Choose Ecosil for soundproofing that truly makes a difference!
